

Ever wish for a new you? A new life? A new start? The good news proclaimed by Jesus at its most basic level is that God is in the business of changing lives.

That doesn't mean that all your problems will miraculously melt away, although God's footprints can be seen fairly regularly for those who are looking for them. More often, however, what's changed is us. Coming into a relationship with God blesses us with new perspectives, new priorities, the ability to relate to those around us a different way.

At Crossroads Community Church we work very intentionally at providing a nonjudgmental and loving environment where transformation can happen. Check us out. We're the church with grace on tap. Come on by and experience "new".
